ERRATA

Two errors occurred in the AAP Policy Statement “Promotion of Healthy Weight-Control Practices in Young Athletes” that was published in the December 2005 issue of Pediatrics (2005;116:1557–1564; doi:10.1542/peds.2005-2314). Figure 1 was inadvertently omitted. Also, under recommendation 5, within the brackets in the third sentence, Figure 1 should have been cited instead of Table 3. The reader is directed to http://aappolicy.aappublications.org/cgi/reprint/pediatrics;116/6/1557 for an updated version.

doi:10.1542/peds.2006-0452

An error appeared in the article by Lanari et al, titled “Neonatal Cytomegalovirus Blood Load and Risk of Sequelae in Symptomatic and Asymptomatic Congenitally Infected Newborns” that was published in the January 2006 issue of Pediatrics Electronic Pages (2006;117:e76–e83; doi:10.1542/peds.2005-0629). On page e79, Figure 1, in the text box to the right of 58 enrolled, it reads “4 deaths.” It should read “2 lost and 2 deaths.”

doi:10.1542/peds.2006-0420

The relationship between \( B_f \), albumin-bound bilirubin concentration (AB), and serum albumin concentration (A) at clinically relevant TSB and A can be expressed as:

\[
B_f = \frac{AB}{(A - AB) \times K}.
\]

Because TSB = AB + B_L and B_L is extremely low relative to TSB, \( AB \approx\) TSB, and the equation can be expressed as:

\[
B_f \approx \frac{TSB}{(A - TSB) \times K}.
\]
