**ERRATA**

An error occurred in this article by Flick et al, titled: “Cognitive and Behavioral Outcomes After Early Exposure to Anesthesia and Surgery” published in the November 2011 issue of *Pediatrics* (2011;128[5]: e1053–e1061; originally published online October 3, 2011; doi:10.1542/peds.2011-0351). On page e1054, in the Introduction, paragraph 1, line 5, this reads: “drugs include N-methyl-D-aspartate glutamate receptor agonists and γ-aminobutyric acid antagonists.” This should have read: “drugs include N-methyl-D-aspartate glutamate receptor antagonists and γ-aminobutyric acid agonists.”

doi:10.1542/peds.2011-3305

An error occurred in the American Academy of Pediatrics clinical report “Prevention and Management of Positional Skull Deformities in Infants” published in the December 2011 issue of *Pediatrics* (2011;128[6]:1236–1241; originally published online November 28, 2011; doi: 10.1542/peds.2011-2220). On page 1237, third column under Prevention, the fourth sentence should read: “Prolonged placement indoors in car safety seats and swings should be discouraged.” We regret the error.

doi:10.1542/peds.2011-3592

An error occurred in the American Academy of Pediatrics policy statement “Health Care for Youth in the Juvenile Justice System” published in the December 2011 issue of *Pediatrics* (2011;128[6]:1219–1235; originally published online November 28, 2011; doi: 10.1542/peds.2011-1757). On page 1219, the number of arrests cited in the first sentence under the heading “Epidemiology of Juvenile Arrests” was inadvertently printed incorrectly. It should read: “In 2008, approximately 2.11 million juveniles younger than age 18 were arrested.” We regret the error.

doi:10.1542/peds.2011-3723

An error occurred in this article by Chipps B et al, titled “Longitudinal Validation of the Test for Respiratory and Asthma Control in Kids in Pediatric Practices” published in the March 2011 issue of *Pediatrics* (2011;127[3]: e737–e747; originally published online February 21, 2011; doi: 10.1542/peds.2010-1465) on page e738, Fig 1, Questions 3 and 5. This figure shows the Test for Respiratory and Asthma Control in Kids (TRACK) tool. Question 3 states, “During the past 4 weeks, to what extent did your child’s breathing problems, such as wheezing, coughing, or shortness of breath, interfere with his or her ability to play, go to school, or engage in usual activities that a child should be doing at his or her age.” The correct answer choices are “Not at all,” “Slightly,” “Moderately,” “Quite a lot,” and “Extremely.” Question 5 states, “During the past 12 months, how often did your child need to take oral corticosteroids (prednisone, prednisolone, Orapred®, Prelone®, or Decadron®) for breathing problems not controlled by other medications?” The
correct answer choices are “Never,” “Once,” “Twice,” “3 times,” and “4 or more times.” The corrected Fig 1 follows.

In the Acknowledgments, the correct spelling for the writer who provided editorial assistance is Hema Gowda, PharmD.

doi:10.1542/peds.2011-3725

A minor clarification has been made in the American Academy of Pediatrics policy statement “Recommended Childhood and Adolescent Immunization Schedules—United States, 2012” published in the February 2012 issue of Pediatrics (2012;129[2]:385–386; doi:10.1542/peds.2011-3630). In Fig 3: Catch-up immunization schedule for persons aged 4 months through 18 years who start late or who are more than 1 month behind—United States, 2012, the bullet in footnote 9 that previously read:

Inadvertent doses of DTaP vaccine are counted as part of the Td/Tdap vaccine series.
An inadvertent dose of DTaP vaccine administered to children aged 7 through 10 years can count as part of the catch-up series. This dose can count as the adolescent Tdap dose, or the child can later receive a Tdap booster dose at age 11–12 years.

and appears as the first bullet rather than the second (ie, the 2 bullets have switched positions).

The corrected schedule is now posted online at http://pediatrics.aappublications.org/ and Red Book Online. Please note that it will differ from the version that appeared in the print journal.
