ERRATA

An error occurred in the article by Aronson et al, titled “Variation in Care of the Febrile Young Infant <90 Days in US Pediatric Emergency Departments” published in the October 2014 issue of Pediatrics (2014;134[4]:667–677; doi:10.1542/2014-1382). On page 669, in the Table 1 originally published, the row and column formatting was incorrect. With the exception of the top row of the table, the numbers all need to be moved up 1 row, and the left-hand column, last row heading “Median age, d (IQR)” can be deleted as it is also listed in the top row. The correct table accompanies this erratum.
