of patients with influenza meningitis under 3 months or over 5 years have not increased from 1942 through 1968.

REFERENCES

Acknowledgment

The authors wish to thank Richard R. Lanese, Ph.D., and the Biometrics Laboratory of the Department of Preventive Medicine for their assistance. In addition, we are indebted to Jeanette Crews, R.N., Marilyn Blaine, R.R.A., and Jeanne Watson for their help in obtaining data.

CORRECTIONS

In the new collection of articles from this Journal:

The Critically Ill Child Diagnosis and Management
(W. B. Saunders, 1972),

an error occurs on page 78. The figure 1.3 in line 6 of that page should be changed to 0.3.

The first reference for the letter "ABO Hemolytic Disease, Complement, and Phagocytosis" by Dr. B. D. Gordon (Pediatrics, 50:169, 1972) should read as follows:

ABO Hemolytic Disease, Complement, and Phagocytosis
B. D. Gordon
*Pediatrics* 1972;50;727
