

ERRATA

Robbins JM, Tilford JM, Bird TM, Cleves MA, Reading JA, Hobbs CA. Hospitalizations of Newborns With Folate-Sensitive Birth Defects Before and After Fortification of Foods With Folic Acid. PEDIATRICS 2006;118:906–915.

An error appears in the article by Robbins et al, titled “Hospitalizations of Newborns With Folate-Sensitive Birth Defects Before and After Fortification of Foods With Folic Acid” that was published in the September 2006 issue of *Pediatrics* (doi:10.1542/peds.2005-2784). In the Results section on page 910, the first full paragraph in column 2, lines 5–7, the authors wrote: “Rates of spina bifida decreased 21% for white infants, 13% for black infants, and 33% for Hispanic infants.” It should read: “Rates of spina bifida decreased 13% for white infants, 21% for black infants, and 33% for Hispanic infants.”

D’Souza Y, Fombonne E, Ward BJ. No Evidence of Persisting Measles Virus in Peripheral Blood Mononuclear Cells From Children with Autism Spectrum Disorder. PEDIATRICS 2006;118:1664–1675.

An error appears in the article by D’Souza et al, titled “No Evidence of Persisting Measles Virus in Peripheral Blood Mononuclear Cells From Children with Autism Spectrum Disorder” published in the October 2006 issue of *Pediatrics* (doi:10.1542/peds.2006-1262). On page 1670, Figure 1 is incorrect. The correct Figure 1 is shown below.

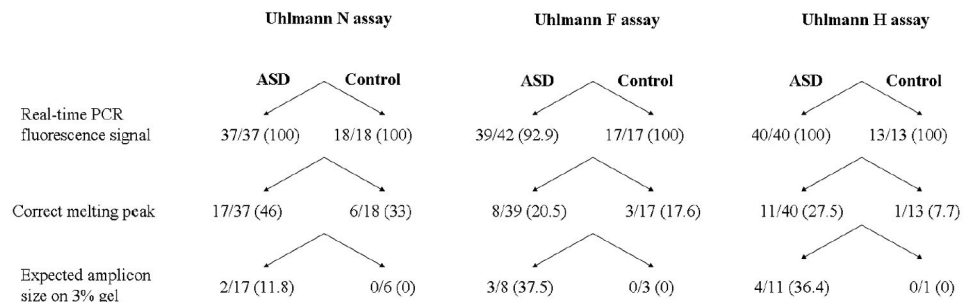

FIGURE 1

Results of Uhlmann assays: flow chart illustrating the protocol for handling samples found to be positive by the Uhlmann nucleoprotein, hemagglutinin, and fusion assays. ASD samples are shown on the left and controls are shown on the right. Numbers in parentheses represent percentages. Seven of 9 sequences were cloned and did not have MV RNA.
