## ERRATA

**Fowler KA, Dahlberg LL, Haileyesus T, et al. Childhood Firearm Injuries in the United States. *Pediatrics*. 2017;140(1):e20163486**

Errors occurred in the article by Fowler et al, titled “Childhood Firearm Injuries in the United States” published in the July 2017 issue of *Pediatrics* (2017;140(1):e20163486; doi: 10.1542/peds.2016-3486). The first sentence on page 2 reads: “Recent evidence from the National Survey of Children’s Exposure to Violence indicates that 4.2% of children aged 0 to 17 in the United States have witnessed a shooting in the past year.” This should have read: “An estimated 4% of children aged 0 to 17 in the United States have been in a place where they could see or hear people being shot, bombs going off, or street riots in the past year.<sup>1</sup>”

Also on page 2, under Methods, paragraph 2, the manuscript reads: “*International Classification of Diseases, 10th Revision: W32-W43* (unintentional firearm deaths)”. This should have read: “*International Classification of Diseases, 10th Revision: W32-W34* (unintentional firearm deaths)”.
