
ERRATA

Mbaeyi SA, Joseph SJ, Blain A, Wang X, Hariri S, MacNeil JR. Meningococcal Disease Among College-Aged Young Adults: 2014–2016. *Pediatrics*. 2019;143(1):e20182130

Errors occurred in the article by Mbaeyi SA et al, titled “Meningococcal Disease Among College-Aged Young Adults: 2014–2016” published in the January 2019 issue of *Pediatrics* (2019;143[1]:e20182130; doi: 10.1542/peds.2018-2130).

On page 1, Abstract, the second sentence of the Results section reads: “Six serogroup B outbreaks were identified on college campuses, accounting for 31.7% of serogroup B cases in college students during this period.” This should have read: “Six serogroup B outbreaks were identified on college campuses, accounting for 30% of serogroup B cases in college students during this period.”

On page 3, Results, the first sentence appearing in column 3 reads: “Outbreak-associated cases accounted for 17 of the 60 (31.7%) serogroup B cases during this time period, with the proportion varying by age group: 14 of 37 (37.8%) cases in persons aged 18 to 19 years, 5 of 22 (22.7%) cases in persons aged 20 to 21 years, and no cases in persons aged 22 to 24 years.” This should have read: “Outbreak-associated cases accounted for 18 of the 60 (30%) serogroup B cases during this time period, with the proportion varying by age group: 14 of 37 (37.8%) cases in persons aged 18 to 19 years, 4 of 22 (18.2%) cases in persons aged 20 to 21 years, and no cases in persons aged 22 to 24 years.”

On page 5, Table 3, under Age Group, the text “20- to 21-year-olds” appears twice. The second appearance should have read “22- to 24-year-olds” instead.

The above corrections have been made to the online article.
