ACKNOWLEDGMENT

The authors wish to thank Mrs. Alma Fraser, Mrs. Phyllis Silke and Miss Dorothy Shrubbsall for their excellent secretarial assistance. We wish to thank Professor M. Gent for his helpful advice in the statistical analysis of our data. Also, we wish to thank Dr. Saroj Saigal for her help in reviewing the cases and Dr. J.M. McBride and staff of the Hematology Laboratory, Henderson General Hospital, for technical assistance.

ERRATUM

Penny, R., Olambiwonnu, N. O., and Frasier, S. D.: Follicle stimulating hormone (FSH) and luteinizing hormone-human chorionic gonadotropin (LH-HCG) concentrations in paired maternal and cord sera. *Pediatrics*, 53:41, 1974.

An error was made by the authors under the Materials and Methods section of the above article which appeared in the January issue. The last two sentences should read:

To convert to nanograms of LER 907, multiply FSH concentrations by 24 and LH concentrations by 17. For conversion to International Units of commercial HCG, divide LH-HCG concentrations by 0.55.

**FOLLICLE STIMULATING HORMONE (FSH) AND LUTEINIZING
HORMONE-HUMAN CHORIONIC GONADOTROPIN (LH-HCG)
CONCENTRATIONS IN PAIRED MATERNAL AND CORD SERA**

Robert Penny, N. Olatunji Olambiwonnu and S. Douglas Frasier
Pediatrics 1974;54:42
