ERRATA

In the article "Milk Feeding Patterns in the United States during the First 12 Months of Life" by Martinez et al (*Pediatrics* 68:863-868, 1981), corrections should be made in Table 5 (p 865) and Table 6 (p 866). In Table 5, Income, 1980 \geq \$15,000 should read 46.6 (not 38.1). In Table 6, values for Income, In Hospital should read as follows: $<$ \$15,000, 50.5 (not 39.9); \$15,000-24,999, 57.1 (not 53.9); \geq \$25,000, 62.2 (not 58.8).

In the article "Management of Asthma" by the Section on Allergy and Immunology of the American Academy of Pediatrics (*Pediatrics* 68:874-879, 1981) corrections should be made on p 876, fourth paragraph, as follows: Line 15, sentence should read: After the loading dose, a constant maintenance infusion of aminophylline of 0.85 mg/kg/hr for children 1 to 9 years old, 0.65 mg/kg/hr for children 9 to 16 years old, and 0.45 mg/kg/hr for adults usually will maintain serum concentrations of approximately 10 μ g/ml. Line 23, sentence should read: Average theophylline dosage for infants less than 1 year old relates to age and can be estimated by a regression formula: dose (milligrams per kilogram per day) = $0.3 \times$ age in weeks + 8.

In the letter "Aspirin Fatalities—The New Taxonomy" by McIntire and Angle (*Pediatrics* 69:249, 1982), in the second paragraph, the last sentence should read: Eight of the 11 deaths occurred at the victim's residence, implying delayed recognition and underutilization of poison control center facilities.

In the letter "Echocardiography in *Aspergillus* Endocarditis" (*Pediatrics* 69:252, 1982) the authors' names are as follows: Martin B. Kleiman, MD, Randall Caldwell, MD, Donald Girod, MD, and Roger Hurwitz, MD.

Management of Asthma

James Easton, Bettina Hilman, Gail Shapiro, Miles Weinberger, John Anderson, Jerome Buckley, Peyton Eggleston and C. W. Bierman
